With Sprout Pro, teachers can transform learning environments into centers of innovation and imagination by connecting the physical and digital worlds.

**Give your teachers the tools they need to succeed**

Engage in facilitated collaboration with Education Collaborators’ certified trainers to develop instructional strategies, curricular connections and techniques for creating compelling learning experiences. With on-site or online guidance, educators can reimagine learning using an immersive, all-in-one learning station.
Custom Sprout Webinar Series: Teaching & Learning with Sprout Pro (A978177)
An online approach to professional development that consists of a series of four 90-minute webinars that will cover the main components of either the Primer or Beyond the Basics workshops. This can be used as an alternative to one or both of the on-site workshops or as supplemental training. Certified trainers will work with participants in advance to determine topics and customize the webinar series.

Customizing an Approach for your Team
Interested in a customized approach? We can work with you to build a custom on-site or online experience.
